

BLUE CHINCHILLA

Breed No: 10a

General Type Standard

Head and Ears – Head broad and round, with breadth between ears, which should be small and well furnished; wide at the muzzle; snub nose.

Eyes – Large, round and most expressive, emerald or blue-green in colour.

Body and Legs – Cobby body; short thick legs.

Tail – Short and bushy.

Coat and Condition – Coat long and dense; silk and fine in texture; extra long on frill.

Colour – Undercoat pure white, the coat on back, flanks, head, ears and tail being tipped with blue; this tipping to be evenly distributed, thus giving the characteristic sparkling silver appearance. The legs may be very slightly shaded with the tipping, but the chin, ear furnishings, stomach and chest must be pure white; any tabby markings or brown or cream tinge are defects. Nose leather old rose, and the visible skin on eyelids and lips blue; the paw pads may be blue or rose.
